

Makushin Bay Worksheet

Name: _____

Date: _____

Instructions: Compare your reasoning skills with those of pre-contact Unangas and with archaeologists. You will visit a bay on Unalaska Island that is rich in resources. You will decide which sites you would choose for your year-round villages, and where your seasonal settlements would be located.

After you have examined all the resources that accompany this learning center, look at the Makushin Bay Map and go through the following steps to help you decide where villages should be located.

1. Identify the resources shown on the map.
2. Find the seasonal sites that are marked on the map.
- 3.
4. Find the year-round village sites on the map.
- 5.
6. Make a list of the resources associated with the year-round village sites.
7. Make a list of the resources associated with seasonal sites.
8. Compare the two lists and explain what factors determined whether a site would be a seasonal or year-round settlement.
